PROFESSIONAL SUMMARY

Software Engineer and freelance Full Stack Developer with hands-on experience since 2021 building responsive websites and web applications. Skilled in JavaScript, React, Next.js, PHP, Laravel, CodeIgniter, Node.js, REST API integration, and database-driven systems. Experienced in translating requirements into user interfaces, implementing back-end features, debugging, and deploying web applications. Currently pursuing a degree in Informatics.

TECHNICAL SKILLS

Languages & Front End: JavaScript, TypeScript, HTML5, CSS3, React, Next.js, Vite, Tailwind CSS, Bootstrap

Back End & APIs: PHP, Laravel, CodeIgniter, Node.js, Express.js, REST APIs, third-party and payment integrations

Databases: MySQL, PostgreSQL, MongoDB

Tools & Deployment: Git, GitHub, Docker, CI/CD, AWS, Google Cloud, web hosting and deployment

PROFESSIONAL EXPERIENCE

Freelance Full Stack Developer | OnyxCode | Remote | Jul 2021 - Present

- Develop responsive websites and custom web applications for client requirements, including business websites, e-commerce features, and administrative dashboards.
- Build front-end interfaces using React, Next.js, Tailwind CSS, and Bootstrap, with layouts tailored to desktop and mobile devices.
- Implement server-side functionality and REST APIs with PHP, Laravel, CodeIgniter, Node.js, and Express.js; connect applications to external services.
- Design and manage application databases, investigate bugs, optimize application behavior, and support deployment and maintenance.

Freelance Cloud & Software Engineer | Self-employed | Remote | Oct 2025 - Jan 2026

- Supported web application deployment, cloud configuration, troubleshooting, and infrastructure documentation using AWS and Google Cloud services.
- Assisted with containerized workflows, CI/CD processes, performance tuning, and application maintenance across multiple technology stacks.

Quality Control | PT. Pulau Sambu Group | Indragiri Hilir, Riau | Feb 2023 - Present

- Performed production and quality inspections in accordance with GMP, SSOP, HACCP, ISO 22000, and FSSC 22000 standards.
- Monitored critical control points, documented findings for traceability, and coordinated corrective actions with production teams.
- Contributed to maintaining a product pass rate above 90% through routine testing and quality monitoring.

Freelance Graphic Designer - Logo & Brand Identity | Remote | Jul 2019 - Present

- Designed logos, brand identities, and digital assets; collaborated with clients to translate business requirements into visual deliverables.

SELECTED DEVELOPMENT WORK

OnyxCode - Business Website and Web Application Features | Personal / freelance work

- Built and worked on website modules such as service pages, blog/article content, product catalogs, contact forms, and administration features using PHP, CodeIgniter, Bootstrap, and MySQL.
- Worked on authentication, content management, SEO settings, visitor analytics, and application troubleshooting.

EDUCATION

Asia Cyber University | Bachelor of Informatics (In Progress), Oct 2024 - Present

MAN 1 Indragiri Hilir | Mathematics and Natural Sciences, Jul 2018 - Jul 2021
